

Phase I Studies: On Time with Quality Data

SPONSOR OVERVIEW

Multinational sponsor with Phase 1 pharmacokinetics study.

KEY CHALLENGES

- **Aggressive Recruitment**
Timelines: Needed to match participant BMIs for specialty population.
- **Fast-Paced Data Delivery:**
Required quick turnaround of PK data for CSR completion.
- **Sponsor Delays:** PK plan finalization stalled key study milestones by two weeks.

CRC SOLUTIONS

- Leveraged a clinical site with a strong track record in the required demographics, enhancing recruitment speed.
- Ensured rapid data entry and analysis through close teams coordination/collaboration (CRC / Client / Vendors).

MILESTONE OUTCOME

Last subject dosed 2 weeks ahead of schedule, exceeding sponsor expectations. Successful study completed under budget while strategically aligning with another ongoing project to advance the sponsor's development program.
